

i3 Verticals Expands Presence In The Healthcare Industry Vertical Through Acquisitions Of Randall Data Systems And CSC Links

February 2, 2017

NASHVILLE, TN (February 1, 2017) – i3 Verticals, LLC, a rapidly growing technology and payment processing company, today announced the expansion of its business in the healthcare industry vertical through the completion of two acquisitions: Randall Data Systems, LLC, headquartered in Plymouth, Michigan, and CSC Links, LLC., headquartered in Nashville, Tennessee.

Greg Daily, founder and CEO of i3 Verticals, remarked, “We are very pleased to announce two acquisitions that will further enhance our footprint in the growing healthcare vertical. We have continued to expand in this attractive vertical as healthcare providers – from large systems to individual practitioners – recognize the benefits of integrated, comprehensive payment systems technology that simplifies patient payment transactions, increases cash flow and reduces collections. Both Randall Data Systems and CSC Links have produced strong records of organic growth by focusing on innovative software and hardware solutions that solve business process issues for healthcare providers, among others, and we welcome their teams to i3 Verticals.”

Randall Data Systems, founded in 1982, provides custom accounting and inventory management solutions for the emerging microcomputer market to a broad range of healthcare and healthcare-related organizations. Randall Data Systems is the largest NCR Counterpoint-SQL provider in Michigan and provides its customers installation, programming, training and ongoing support for both hardware and software.

CSC Links, founded in 2008, provides a number of payment solutions and methodologies centered around vertical markets, specifically in the healthcare and non-profit verticals. CSC is a pure sales organization, and this transaction is expected to expand its capacity for growth through the increased capabilities provided by i3 Verticals' back-office platform for installation, training and on-going support.

About i3 Verticals, LLC

Based in Nashville, Tennessee, i3 Verticals, LLC is a technology and integrated payments provider for a range of industry verticals throughout the United States. i3 Verticals intends to make additional acquisitions and become a leader in distinct, growing verticals by helping customers improve their operating efficiencies, enhance revenues, and streamline their payment processing functions.
