February 8, 2021

### *Plans to Discuss BIS Acquisition on Earnings Conference Call*

NASHVILLE, Tenn.--(BUSINESS WIRE)--Feb. 8, 2021-- i3 Verticals, Inc. (Nasdaq: IIV) ("i3 Verticals" or the "Company") today reported its financial results for the fiscal first quarter ended December 31, 2020.

### **Highlights for the fiscal first quarter of 2021 vs. 2020**

- First quarter revenue was \$43.3 million, an increase of 5% over the prior year's first quarter.
- First quarter adjusted net revenue<sup>1</sup>, which excludes acquisition revenue adjustments, was \$44.9 million, an increase of 8% over the prior year's first quarter.
- First quarter net loss was \$4.1 million, compared to net income of \$1.9 million in the prior year's first quarter.
- First quarter adjusted EBITDA<sup>1</sup> was \$10.9 million, a decrease of 8% over the prior year's first quarter.
- First quarter adjusted EBITDA<sup>1</sup> as a percentage of adjusted net revenue<sup>1</sup> was 24.2%, compared to 28.5% in the prior year's first quarter.
- First quarter diluted net loss per share available to Class A common stock was \$0.13, compared to diluted net loss per share available to Class A common stock of \$0.01 in the prior year's first quarter.
- First quarter pro forma adjusted diluted earnings per share<sup>1</sup>, which gives pro forma effect to the Company's estimated going forward effective tax rate, was \$0.22, compared to \$0.24 for the prior year's first quarter.
- Integrated payments<sup>2</sup> were 56% of payment volume for the three months ended December 31, 2020.
- At December 31, 2020, the ratio of consolidated interest coverage ratio was 16.48x, total leverage ratio was 3.67x and consolidated senior leverage ratio was 0.92x. These ratios are defined in our Senior Secured Credit Facility.
- As previously announced in our press release dated February 5, 2021, the Company completed the acquisition of Business Information Systems ("BIS"), a business based in east Tennessee that provides software and electronic payment solutions in a variety of states. BIS will fit within the Company's public sector vertical. The aggregate purchase price was \$87.7 million, consisting of \$52.5 million in cash, approximately \$35.2 million of Class A common stock and an amount of contingent consideration, which is still being valued. The transaction includes contingent consideration of up to \$16.0 million, subject to the satisfaction of certain growth metrics over established time periods.

<sup>1</sup> Represents a non-GAAP financial measure. For additional information (including reconciliation information), see the attached schedules to this release.

<sup>2</sup> Integrated payments represents payment transactions that are generated in situations where payment technology is embedded within the Company's own proprietary software, a client's software or critical business process.

Greg Daily, Chairman and CEO of i3 Verticals, commented, "We are pleased with our first quarter results. Our execution of our M&A strategy has driven our transformation into a software-led company. Software-related revenues have grown from 12% of our adjusted net revenue in the first quarter of fiscal 2018 to 36% of our adjusted net revenue during the first quarter of fiscal 2021. We are focused on expanding in this area. Our financial results continued to improve, despite the effects of COVID-19 related restrictions that were reinstated during the holiday season, which slowed the progress of our payment volume recovery during the quarter. Several early 2021 trends will aid the recovery of our business, including a return to in-person schooling, additional financial stimulus and the deployment of vaccines. We are confident in our ability to deliver solid financial results in 2021.

"Last week we announced our largest acquisition to date, BIS. The acquisition significantly expands our Public Sector vertical, which now represents almost half of our adjusted net revenue. Our product suite now allows us to approach the Public Sector vertical at multiple levels — from the individual court-level to the statewide level — and we are excited to deliver valuable solutions to our customers we expect to generate continued growth at i3," concluded Daily.

### **2021 Outlook**

The Company's practice is to provide annual guidance, excluding future acquisitions and transaction-related costs. The Company is providing the

following outlook for the fiscal year ending September 30, 2021:

(in thousands, except share and per share amounts)	Outlook Range	
	Fiscal year ending September 30, 2021	
Adjusted net revenue <sup>(1)</sup> (non-GAAP)	\$ 198,000	- \$ 214,000
Adjusted EBITDA (non-GAAP)	\$ 50,000	- \$ 56,000
Depreciation and internally developed software amortization	\$ 4,250,000	- \$ 4,750,000
Cash interest expense, net	\$ 4,250,000	- \$ 4,750,000
Pro forma weighted average shares of adjusted diluted Class A common stock outstanding	32,500,000	- 34,500,000
Adjusted diluted earnings per share <sup>(2)</sup> (non-GAAP)	\$ 0.93	- \$ 1.06

---

Under GAAP, companies must adjust, as necessary, beginning balances of acquired deferred revenue to fair value as part of acquisition accounting 1. as defined by GAAP. For the revised 2021 outlook, the Company has removed the effect of these adjustments to acquisition date fair value from acquisitions that have closed as of the earnings release date.

2. Assumes an effective pro forma tax rate of 25.0% (non-GAAP).

With respect to the "2021 Outlook" above, reconciliation of adjusted net revenue, adjusted EBITDA and adjusted diluted earnings per share guidance to the closest corresponding GAAP measure on a forward-looking basis is not available without unreasonable efforts. This inability results from the inherent difficulty in forecasting generally and quantifying certain projected amounts that are necessary for such reconciliations. In particular, sufficient information is not available to calculate certain adjustments required for such reconciliations, including changes in the fair value of contingent consideration, income tax expense of i3 Verticals, Inc. and equity-based compensation expense. The Company expects these adjustments may have a potentially significant impact on future GAAP financial results.

### Reconciliation of GAAP to Non-GAAP Financial Measures

The Company believes that non-GAAP financial measures are important to enable investors to understand and evaluate its ongoing operating results. Accordingly, i3 Verticals includes non-GAAP financial measures when reporting its financial results to shareholders and potential investors in order to provide them with an additional tool to evaluate the Company's ongoing business operations. i3 Verticals believes that the non-GAAP financial measures are representative of comparative financial performance that reflects the economic substance of i3 Verticals' current and ongoing business operations.

Although non-GAAP financial measures are often used to measure the Company's operating results and assess its financial performance, they are not

necessarily comparable to similarly titled measures of other companies due to potential inconsistencies in the method of calculation. i3 Verticals believes that its provision of non-GAAP financial measures provides investors with important key financial performance indicators that are utilized by management to assess the Company's operating results, evaluate the business and make operational decisions on a prospective, going-forward basis. Hence, management provides disclosure of non-GAAP financial measures to give shareholders and potential investors an opportunity to see i3 Verticals as viewed by management, to assess i3 Verticals with some of the same tools that management utilizes internally and to be able to compare such information with prior periods. i3 Verticals believes that inclusion of non-GAAP financial measures provides investors with additional information to help them better understand its financial statements just as management utilizes these non-GAAP financial measures to better understand the business, manage budgets and allocate resources.
