

i3 Verticals and West Virginia Supreme Court Expand Partnership

October 20, 2025

i3 CourtOne™ to Enhance Transparency and Efficiency Across State Court System

NASHVILLE, Tenn--(BUSINESS WIRE)--Oct. 20, 2025-- i3 Verticals, Inc. (Nasdaq: IIIV) ("i3 Verticals" or the "Company") today announced a new contract with the Supreme Court of Appeals of West Virginia that provides for the delivery of the i3 CourtOne™ Case Management Solution (CMS) to the state's Circuit, Family and Magistrate Courts. This engagement represents a significant milestone in the state's ongoing modernization efforts, and promotes a more unified, transparent, and efficient judicial system. The Company will discuss this new contract during its upcoming fiscal 2025 fourth quarter earnings call in November, but the Company estimates the contract will represent eight figures in revenue over a six-year period.

"We are thrilled to expand our partnership with the Supreme Court of Appeals of West Virginia," said Dave Graves, Executive Vice President, JusticeTech®. "Our relationship with West Virginia has always been rooted in collaboration. For decades, states have attempted to unify their judicial systems in ways that resulted in high costs to their citizens. West Virginia desired something different - an innovative solution that would unify their judicial system and deliver a high-quality product to their citizens, all at a fraction of the historical net cost for these systems. We feel that our collaboration with West Virginia achieves these goals and creates a new model for the state market."

Building on years of successful collaboration, the new contract will also allow i3 Verticals to provide additional value-added services designed to maximize efficiency and offset project costs for West Virginia's unified judicial system. An expanded WVPASS platform will empower citizens to gain greater access to aggregated public court data, while the i3 Fund Recovery Solution, Resolv 360™, will streamline financial processes and improve courts' disposition rates.

"We are excited to expand our collaboration with i3 Verticals on this critical modernization for our lower courts in West Virginia," said Chief Justice William R. "Bill" Wooton. "The i3 CourtOne™ CMS will unite our Circuit, Family and Magistrate Courts under a single, more efficient system while also promoting cost savings and increased transparency for the citizens of West Virginia."

About i3 Verticals

The Company provides mission-critical enterprise software solutions to public sector entities. These comprehensive cloud-native solutions address a broad range of government functions, including courts and public safety, public administration, utilities, transportation and schools. The Company's mission is to enable state and local governments and related agencies to perform their functions and serve their constituents as effectively and efficiently as possible.
